

# Annex D2: Business and Corporate (Non-Health) Records Retention Schedule

This retention schedule details a Minimum Retention Period for each type of non-health record. Records (whatever the media) may be retained for longer than the minimum period. However, records should not ordinarily be retained for more than 30 years. The National Archives (see Note 1 below) should be consulted where a longer period than 30 years is required, or for any pre-1948 records. Organisations should also remember that records containing personal information are subject to the Data Protection Act 1998.

The following types of record are covered by this retention schedule (regardless of the media on which they are held, including paper, electronic, images and sound):

- administrative records (including personnel, estates, financial and accounting
- records, and notes associated with complaint handling);
- photographs, slides and other images (non-clinical);
- microform (ie microfiche/microfilm);
- audio and video tapes, cassettes, CD-ROMs, etc;
- e-mails;
- computerised records; and
- scanned documents

The schedule is split into the following types of records:

Administrative (corporate and organisation)

Biomedical Engineering

Estates/engineering

Financial

IM & T

Other

Personnel/human resources

Purchasing/supplies

If viewed in electronic format, the search facility in Word or PDF can be used to search for particular record types.

### *Notes*

An organisation with an existing relationship with an approved Place of Deposit should consult the Place of Deposit in the first instance. Where there is no pre-existing relationship with a Place of Deposit, organisations should consult The National Archives.

# Annex D3: Electronic Record/ Audit Trails

1. Electronic records are supported by audit trails, which record details of all additions, changes, deletions and viewings. Typically, the audit trail will include information on:
  - who – identification of the person creating, changing or viewing the record;
  - what – details of the data entry or what was viewed;
  - when – date and time of the data entry or viewing; and
  - where – the location where the data entry or viewing occurred.
2. Audit trails are important for medico-legal purposes as they enable the reconstruction of records at a point in time. Without its associated audit trail, there is no reliable way of confirming that an entry is a true record of an event or intervention.
3. NHS Connecting for Health is considering the impact of the retention of audit trail data, eg whether it should be retained for at least the same period as the data to which it relates. There is also an unresolved issue regarding the association of audit trail data with electronic GP records transferred between practices.
4. Advice and guidance specific to audit trails will be issued in due course on the Department of Health website (<http://www.dh.gov.uk/PolicyandGuidance/OrganisationPolicy/RecordsManagement/>). In the meantime, NHS organisations are advised to retain all audit trails until further notice.

# Annex E: Approved Places of Deposit

'Where an NHS Trust has previously deposited records with a given place of deposit listed here, it should continue to liaise with the same institution unless it receives guidance from The National Archives (TNA) to the contrary. If a Trust is not aware of any previous transfers, or as a result of re-organisation has previously transferred records to more than one place of deposit, it should contact National Advisory Services at TNA (nas@nationalarchives.gov.uk, tel 020 8392 5330 x2620), who will be able to advise which place of deposit should be contacted regarding further transfers. National Advisory Services will also be happy to advise on any other queries regarding the working of the Public Records Act in respect of NHS records.'

A list of all the current appointed Places of Deposit is available on The National Archives website (see below)

<http://www.nationalarchives.gov.uk/archives/deposit.htm>

The current contact details of these institutions are on The National Archives Archon Directory page (see below)
