

# Please ask for a Sickness Certificate

- After a stay in hospital, you may still need time to recover at home and be unable to work
- Please ask your hospital doctor to provide you with a sickness certificate
- We will issue you one for the anticipated length of time that work will not be possible. This is to avoid you having to obtain a GP certificate after you leave
- If you are unsure if you will need a sickness certificate or have any other queries about this please speak to your nurse or hospital doctor
